

# GET THE ORDER WITH GALVAN

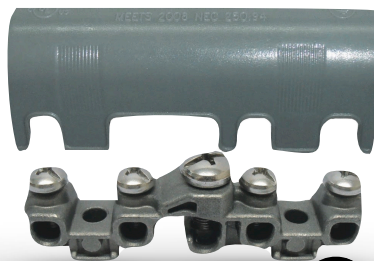

*It's easy to sell Galvan's most popular products. They have advantages that competitors can't match. Use the notes below to make the most of your sales opportunities!*

## G-5 and SRC Grounding Clamps

Most acorn ground rod clamps are **NOT** listed for galvanized or stainless steel ground rods. Galvan G-5 and SRC clamps are listed for copper, galvanized, stainless, and rebar.

Key selling proposition: "I can sell you a clamp that is **UL-listed** for copper-coated, galvanized and stainless steel ground rods, and rebar, for the same cost as that other clamp that's only listed for copper-coated rods."

## IBBZ Intersystem Bonding Bridge Connectors

Galvan's **low-cost** IBBZ meets all requirements for **NEC 250.94** for Intersystem Bonding Termination of up to four systems. Its protective plastic cover snaps into place.

Key selling proposition: "I can sell you a **cost-saving** intersystem bonding bridge that is quicker and easier to install. There is no cover screw to lose in the field and the color matches the panel board."

## Galvan UL-Listed Copper Coated Ground Rods

Our UL-listed copper coated ground rods **meet all requirements of the NEC**, are color-coded to reduce errors, and they conform to "Buy American" laws for government funded projects.

Key selling proposition: "I can offer you a **UL-Listed** ground rod Made in the USA by a veteran owned company, and stocked in nearby warehouses."
