

MADE IN USA

100% AMERICAN OWNED

Protect your power at the source

America's fast-growing wind and solar power generation utilities need safe, reliable grounding to stay on line. Galvan delivers with **US-Made, UL-Listed ground rods**. Manufactured from the **highest quality** materials at our plant in North Carolina, Galvan grounding products are **readily available** from **stocking locations across the country**. Rely on Galvan for reliable power.

Galvan Grounding Products for Solar and Wind Power

***Highest Standards, Affordable Cost,
Longest Life, Readily Available***

Copper Coated Ground Rods

- Galvan's copper coated rods have a heavy, uniform coating of copper metallurgically bonded to a rigid steel core.
- Galvan color-codes the rod end to eliminate size errors.
- Meets NEMA GR-1
- Listed to UL-467 specification.
- Galvan manufactures copper-coated rods under patent 6,527,934.
- Made in USA. Veteran-owned company.

Copper Coated Sectional Ground Rods

- Threaded on both ends.
- Listed to UL-467 specification.
- Made in USA. Veteran-owned company.
- *Threaded couplings for copper-coated sectional rods - cast bronze, UNC threads. UL Listed.*

304 Solid Stainless-Steel Ground Rods

- Ideal for corrosive environments
- Excellent longevity in most soils
- Meets NEMA GR-1.
- Stamped for inspectability and traceability.
- Listed to UL-467 specification.
- 316 Stainless available upon request.
- Made in USA. Veteran-owned company.

Galvan Pigtail Ground Rods Make Installation Faster and Safer

With Galvan pigtail ground rods, the grounding conductor is factory welded near the top of the rod, creating a permanent, corrosion-free bond. Galvan pigtail rods eliminate the safety hazards associated with exothermic welding in the field. They also reduce installation time.

Contact the factory for a quotation on copper-coated or hot-dip galvanized pigtail rods. Provide rod type, size, wire type, gage and length. (Example: 5/8"x8' copper-coated rod with 12' of #6 bare solid copper pigtail to be attached 6" from the top or drive end of the rod.)

For more information, or to place an order, contact Galvan Industries at (704) 455-5102. Visit Galvan online at www.galvanelectrical.com.
